Summary

Flutter Developer specializing in **high-performance cross-platform mobile applications**, applying **MVVM and Clean Architecture** principles.

Experienced in **publishing and maintaining production apps** on **Google Play Store and App Store**.

Strong expertise in **CI/CD pipelines, Firebase**, and advanced state management (**BLoC, GetX, Riverpod**).

Skilled in **modular architecture, Atomic Design, reusable packages**, and advanced navigation with **GoRouter**, delivering clean, maintainable code in **Agile/Scrum** environments.

Work Experience

07/2023 - Present | Mobile Developer | Continuous Net, Sousse, Tunisia

Agile/Scrum team member (2 mobile, 2 backend, QA, UX, PO, SM), delivering 3 production Flutter apps live on Google Play & App Store ([Sunshine Vacances](#), [ZenifyTrip](#), [TunisiePromo](#)).

- Architected and maintained a modular **SDK ecosystem** of **6+ reusable Flutter packages** and **shared design systems** (auth, networking, UI, activities) with semantic versioning and Git-based dependency management, reducing development time by 40% across white-label applications.
- Designed scalable apps using **Clean Architecture, MVVM**, and **Atomic Design**, with **multi-flavor** builds (dev/staging/prod) and full **CI/CD pipelines** (GitLab, Fastlane, Firebase App Distribution), achieving 80% test coverage.
- Built real-time and transactional features including **WebSocket**-based chat, activity discovery, in-app purchases, **FCM** push notifications, and deep-linked navigation using **GoRouter** (Navigator 2.0), supported by **Dio/Retrofit** networking and **Riverpod, GetX**, and **GetIt** for state and dependency management.
- Managed full release lifecycle including submission, signing, and platform compliance for Google Play Store and App Store.
- Authored comprehensive **technical documentation** to improve code maintainability and accelerate new developer onboarding.

02/2023 - 07/2023 | Mobile Developer (Intern) | Continuous Net, Sousse, Tunisia

- Integrated REST APIs and implemented a scalable state management solution using Riverpod and Provider for a travel booking application, with multi-platform authentication.
- Contributed to implementing responsive UIs from Figma designs, ensuring consistency across Android and iOS devices.
- Collaborated with UI/UX designers and backend teams to align API contracts and app flows.

06/2022 - 08/2022 | Web Developer (Intern) | DRÄXLMAIER Group, Monastir, Tunisia

- Developed a **PHP/Laravel** document archiving system supporting multiple file formats (PDF, DOCX, images) and role-based access control, used by 30+ internal users.
- Reduced page load time by 25%, contributing to smoother document browsing and faster internal workflows.
- Enhanced UI/UX using **HTML5, CSS3, Bootstrap, and JavaScript**, reducing user-reported navigation issues during testing.
- Worked within Agile/Scrum workflows, gaining hands-on experience with real production constraints and deadlines.

10/2021 - 03/2022 | Mobile Developer (Intern) | ENSI | Municipal Services Mobile App

- Built and customized in a team of 3 using Scrum/Agile, a Flutter app digitalizing municipal services (ticket booking, appointments, WebSocket chat) with **Provider** and **Hive** for state management and local storage.
- Integrated Google Maps, Firebase for authentication, and role-based system (citizens, employees, admins) with incident reporting and media uploads.

Technical Skills

Languages: Dart, JavaScript, Kotlin, Swift

Mobile Development: Flutter, Firebase (Auth, Firestore, FCM, Storage), Provider, BLoC, GetX, Riverpod, GetIt

Architecture & Design: MVVM, Clean Architecture, Modular Architecture, Atomic Design, Dependency Injection, SDK/Package Development

Networking: RESTful APIs, Dio, Retrofit, WebSockets, Socket.io

CI/CD & Tools: GitLab CI/CD, Fastlane, Git (semantic versioning), Xcode, Postman, Hive, GoRouter

Testing & Release: Unit, Widget & Integration Testing, TDD, Google Play Console, App Store Connect

Methodologies: Agile/Scrum, White-label Development, Technical Documentation

Education

09/2020 - 07/2023	Engineering Degree in Computer Science (EQF Level 7) National Engineering School of Computer Science - ENSI, Tunisia
09/2017 - 07/2020	Bachelor's Degree in Mathematics and Applications Higher Institute of Computer Science and Mathematics - ISIMM, Tunisia
